EDUCATION

Gandhinagar Institute of Technology

2023 – 2027

Bachelor of Technology (B.Tech), Computer Engineering | CGPA: 9.3/10

SKILLS

Languages: Java, Python, JavaScript, C++, C

Backend: Spring Boot, Spring Cloud, REST APIs, Microservices

Frontend: React.js, Next.js, Node.js, Express.js

Cloud & DevOps: Docker, Kubernetes, Helm

Distributed Systems: Apache Kafka, Eureka Service Discovery, Event-Driven Architecture

Databases: MySQL, MongoDB

Security: JWT, OAuth2

Tools: Git, Postman, Grafana, Loki

EXPERIENCE

Java Developer | Keyanna Technology Private Limited

Jun 2026 – Jul 2026

Internship

- Gained hands-on exposure to enterprise software development within a Spring Boot microservices-based digital wallet platform.
- Studied the Ticket Management microservice end-to-end, including CRUD operations, REST APIs, database interactions, and service integration.
- Worked with senior developers on SRS-based requirement analysis, task breakdown, and API testing via Postman.

Backend Developer | Cultural & Technical Fest 2025

- Developed and maintained the backend registration platform used during institute-wide events.
- Implemented OTP-based registration and authentication workflows integrated with relational databases.
- Supported live deployment serving real users during event operations.

Team Lead | Smart India Hackathon (2024 & 2025)

- Led multidisciplinary teams through architecture planning and prototype development.
- Coordinated development workflows, technical decision-making, and project execution under hackathon timelines.

PROJECTS

Cloud-Native Microservices Backend System

Java, Spring Boot, Spring Cloud, Kafka, Kubernetes

- Designed independently deployable cloud-native microservices using Spring Boot, Eureka Service Discovery, and Spring Cloud Config.
- Built asynchronous event-driven communication via Kafka, secured with JWT/OAuth2, containerized with Docker/Kubernetes, and monitored via Grafana/Loki.

Smart Travel Itinerary Builder (Odoo Hackathon Finalist)

Next.js, React, REST APIs, SQL

- Built and demonstrated a travel itinerary platform during an intensive 24-hour hackathon sprint.
- Developed backend APIs and structured database integration workflows, validated via Postman.

InternMatchAI

Python, Machine Learning, NLP

- Developed an AI-assisted internship recommendation system using NLP to match student profiles with relevant opportunities.

NutriScan

Deep Learning, Computer Vision

- Developed a nutrition-tracking prototype using computer vision for image-based food recognition and intake analysis.

ACHIEVEMENTS

- Odoo Hackathon 2025 Finalist — Top 300 teams among 19,000+ participants.
- Programming in Java (Gold + Elite) — NPTEL, IIT Kharagpur.
- Nominated for Dewang Mehta IT Award for Academic Excellence.
- Smart India Hackathon 2024 Project Selected through Internal Evaluation.
